

For UPEI Student Job Board

Title:

Outdoor work in a beautiful spot

Job description:

Regular mowing and edging, plus very occasional garden work I need help with, like planting a fruit tree or two. I provide the equipment and fuel.

Location:

An old farm in Mermaid, about 7 minutes outside Charlottetown. To mow: a large grassy area around the house and barns, a small orchard, a grassy lane going down the river, a hedgerow going up toward Rt 21, in total, about 4 acres.

Start date:

ASAP, if possible through September

Time commitment:

Part Time, hours and schedule negotiable. It takes between 4-5 hours to mow the whole thing. From May into early July the open areas need mowing once a week, and the lanes need mowing once every other week. I am happy to share this task with you.

Note: From the second half of June until the beginning of July, and from early September until the beginning of October, you would need to commit to mowing once a week.

Rate:

\$20 per hour

Your qualifications:

I need someone who is extremely reliable, honest, physically strong, and enjoys being outside in a peaceful environment. It would help if you know how to operate a lawn tractor and edger, but not, I can show you.

Me:

My name is Michal Goldman. I am an almost-retired documentary filmmaker.
